Resident Birthdays

APRIL-2017

Herta C. 17th

Melissa Case ~ Nurse's Notes

I will be starting back up the monthly weights and vitals clinic. I will give notice the week of, to give everyone a chance to participate if they want to. It is not required, but strongly encouraged. If you have any questions, please come and see me.

OSHA requires our community to keep a record of all the chemicals that are used in the building in a SDS (Safety Data Sheet) binder. This includes all of the resident laundry and cleaning supplies that are being used as well. If you start using a different detergent than the one you have currently been using, please let the staff know so we can print off a sheet for that chemical to keep in the binder. Thank you.

St.
Patrick's
Day
Celebration

Your best memories are made on the lake...

Rolling out the red carpet for you!

Games and Activities

Uno, Kings in the corner and Wii Bowling are some of the games the residents like to play. Participation has increased at many of our activities. If there is something you would like to do, that we are not doing, please let Nancy know. We will try to get it started. Many of the residents have been enjoying our recent scenic drives, now that weather is no longer an issue.

School Reading Buddies— We go to Panorama Elementary School every 1st and 3rd Thursdays at 1:30 to listen to the 1st graders read to us. March was the first time we had SIX residents going to school. We have fun with the

children.

Tornado Season

Spring is here and so is volatile weather. We would like to remind our residents that if there is a tornado watch, that means the possibility of tornadoes may occur. If that is upgraded to a **tornado warning** for Guthrie County, the residents are to move **immediately to the first floor**, and remain in the chapel, storage area or fitness room until the warning has been lifted.

HAPPY
EASTER
